

chemicals and biofuels; forest and consumer products; fertilizers; polymers and fibers; electronic components; process and pollution control equipment and technologies; commodity trading; minerals; energy; ranching; and investments.

Guardian

6. Guardian is a privately held U.S. corporation which, with its subsidiaries, is active worldwide in manufacturing float glass and fabricated glass products, coated injection moulded plastic parts for automotive and other applications, and in the United States, distributing building materials for commercial and residential applications.

D. Relevant market(s) to which the combination relates

7. The Parties respectfully submit that the relevant product and geographic markets be left open as the Proposed Combination will not affect or change the competitive landscape of the float glass market in India. However to aid the Hon'ble Competition Commission of India's assessment of the Proposed Combination, the Parties propose that the relevant market may be considered to be the market for manufacture of float glass in India.
